

It's your future.

Resurrection Health Care
Retirement Plan (pension plan)

New online access to your pension plan

All in one place

As part of the overall integration of benefits under Presence Health, we're excited to announce that the pension plan will now be administered by Lincoln Financial. As a result, you can access your Presence Health Retirement Savings Plan and pension plan information all in one place at LincolnFinancial.com.

Accessing your pension information

By logging on to LincolnFinancial.com, you can review your personal pension data and accrued plan benefit. The site provides all relevant data that influences your pension benefit, including your pay history, service history, and vesting status. This information is updated with each payroll.

Modeling

In addition to seeing your accrued benefit estimate, you can view your projected benefit at different retirement ages. To access this tool, click on the "Modeling" link located on the upper left side of the page. In a rush? You can also access "In A Hurry"—a tool that allows for quicker modeling using fewer variables.

Ready to retire?

The site is also useful as you near retirement. Simply click the "Getting Closer" button to request the necessary forms to start your retirement benefit.

Web Instructional

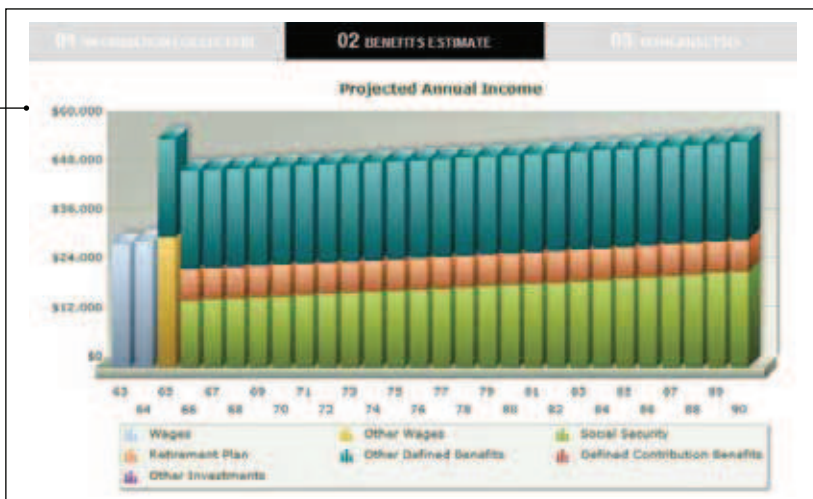

Benefit Modeling

Benefit Modeling allows you to model your Total Retirement Benefit based on variables you enter about your anticipated date of retirement and other sources of retirement income available to you.

Begin by clicking the Modeling link in the top navigation menu or the Get Started button from the home page. Then enter general assumptions such as your current pay, expected pay increase percentage, anticipated rates of returns, and information about your other retirement savings.

When you click in each of the fields to enter your assumptions, you will see a detailed description of each of the assumptions.

Once you click "Project Benefits", your projected annual income will display, showing the estimated income you will receive from each of your retirement savings sources each year.

To model only your Pension Plan benefit using fewer variables, click the "In a Hurry" link.

Initiate Retirement

When you are ready to initiate your retirement and begin receiving Pension Plan benefit payments, click the link in the "Getting Closer" information box on the Home page. Confirm your address displayed on the screen, then enter the required fields to receive a packet of forms to complete.

Logging Out

Be sure to click the Log Out button in the upper right-hand corner when you are finished reviewing your Pension Plan information to ensure the highest level of security.

Other Features

Refer to the Staying Current section for up-to-date information through our scrolling news feed.

Additional Help

Contact the Customer Service Center at (800) 234-3500 Monday through Friday from 8:00 a.m. through 8:00 p.m. ET if you have additional questions about your Pension Plan or to initiate your retirement.
